

Help Your Accountant Help You!

We'll send a FREE Accountant's Copy of MYOB software to your accountant.

Help us help your accountant understand MYOB. With an Accountant's Copy, he or she can get to know how MYOB software works. If they have their own copy of MYOB software, they can perform year-end transactions and run the reports they need for your tax return or financial statements. This could save you and your accountant time and money.

Just fill in the information on the reverse side and mail it, fax it, or email us with the information requested and we'll rush out an Accountant's Copy of MYOB software to them. Or give this card to your accountant and they can contact us directly.

In addition to the free Accountant's Copy of MYOB software, we'll send your accountant information on the MYOB Partner Program so they can better support your business.

To Order

Fax: Complete this form and fax it to **1-973-586-2229**.
